Additional Products/orders purchased after the First 30 days are calculated in the Dual Team Commissions Structure using additional order BV allocation.
* QV is Qualifying Rank advancement volume. This will accumulate at the bottom of your left and right dual team genealogy. You are not paid on this number; you rank advance with this number in a calendar month. Note: QV starts over each month at zero and is not carried over.

Qualification

To qualify for Dual Team Cycle Commissions requires 20QV (Personal) or greater and sponsor a minimum of two (2) active Members — one placed on the left team and one placed on the right team — who each purchase 20 QV or greater each month.

If you do not satisfy the Dual Team Commissions qualification by maintaining a minimum of 20 QV as the minimum requirement, our system will *NOT* accumulate and store unpaid sales volumes in your team(s) for future commissions calculations (upon qualification).

If you do satisfy the Dual Team Commissions qualification by maintaining a minimum of 20QV as the minimum requirement, unpaid sales volumes will carry forward.

Rank Cycle Caps

Each week you cycle, your lesser leg matches your strong leg (100 BV to 200 BV). All of the Volume for all of the cycles available on your account is deducted. If your account has the Volume for more cycles than your rank's cycle cap, you will be paid on your rank's maximum number of cycles, but the Volume for all cycles will be deducted. Any remaining volume will carry over to the next pay period. Assuming you fulfill the monthly qualification of personally producing 20 QV each month and personally sponsoring a Member on the left and right leg, both purchasing 20 QV each month.

Retail Customers do not appear in the Dual Team commissions tree. Business Volume that is generated by Retail customers purchases of Collect Direct products will go to your smaller team leg.

Customer volume automatically disperses to either the left or the right team leg where it's needed, to maximize earnings for the Member.

Your two team volume (left and right) pays you a cycle based on 200 BV on one side and 100 BV on the other. This BV comes from all members and customer acquisitions that come in on those teams below you (not just your personal).

The Lifestyle Bonus is Earned

Beginning at the rank of Middle-Weight, and continues for ranks above, and is paid to the qualified Member beginning after two consecutive months of maintaining this status.
For example, if you become a fully qualified Middle-Weight in the month of April, and maintain the qualified rank of Middle-Weight for the month of May, you will receive your first Lifestyle Bonus in the month of June.
If you fail to maintain Middle-Weight status, you will not be paid the Lifestyle Bonus again until you reach Middle-Weight status or higher again.

GLOBAL SHARE

Qualified Members can Share in a Pool of 1% of the Enrollment pool if they enroll 400BV in new orders from customers and new members in one Calendar Month (No carry over). Members can earn as many shares as they want but can not carry over to next month.

Bonus Schedule

Weekly bonuses are paid every Thursday, based on the sales of the previous week. Monthly bonuses are paid on the 15th or earlier of the following month, based on the sales of the previous month.

Maintaining Volume

If you do not personally purchase a monthly order equal to or greater than 20QV, accumulated points are subject to flush. *At this time, points will not flush.*

Each week you cycle, your lesser leg matches your strong leg (100 to 200). All of the Volume for all of the cycles available on your account is deducted. If your account has the Volume for more cycles than your rank's cycle cap, you will be paid on your rank's maximum number of cycles, but the Volume for all cycles will be deducted. Any remaining volume will carry over to the next pay period.

Rank Advancement

Any rank you achieve in a given week will be activated and paid according to that rank the following week. Any unqualified rank, beginning from the rank of Diamond Member or above, who may have lost their active weekly or monthly Diamond Member or above qualification, will be granted a grace period of 30 days in order to re-qualify and retain their Diamond Member or above rank benefits. Rank title will remain the same. (Once a Diamond, always a Diamond).

Rank Achievement Requirements

As an Example:
Diamond qualification = 20 QV, with your two personal members one on each leg qualifying each month with a $29.98 or 20 QV order, 15,000+ QV in both legs of which 10% of the QV in each leg needs to be connected Enrollment Tree Business Volume.

Monthly QV Production Requirements
To earn certain bonuses in the Collect Direct compensation plan, a Collect Direct Member is required to personally produce a minimum amount of monthly qualifying volume (20 QV).

For Diamond, as your personal members advance they can fulfill your rank advancement requirements. For example you need three members that have advanced to Super-Star which means three of them had to have generated 400 QV group business volume in both of their left and right legs. Your three personally enrolled Super-Stars can be placed on either leg. This is a one time qualification so if they don't stay qualified it does not affect you. You will be grandfathered as fulfilling this qualification regardless of if they continue or not. You however will need to maintain the GQV needed in your two legs accordingly.

For Double Diamond and above the same members that advanced to Home-Run Collector then to Super-Star collector could them advance to Diamond and count as your diamond needed .

To maintain that double diamond and above rank for pay outs that diamond would need to stay qualified .

All Prices listed in the Compensation Plan are denominated in USD. Commissions earned are paid in USD.

Definitions

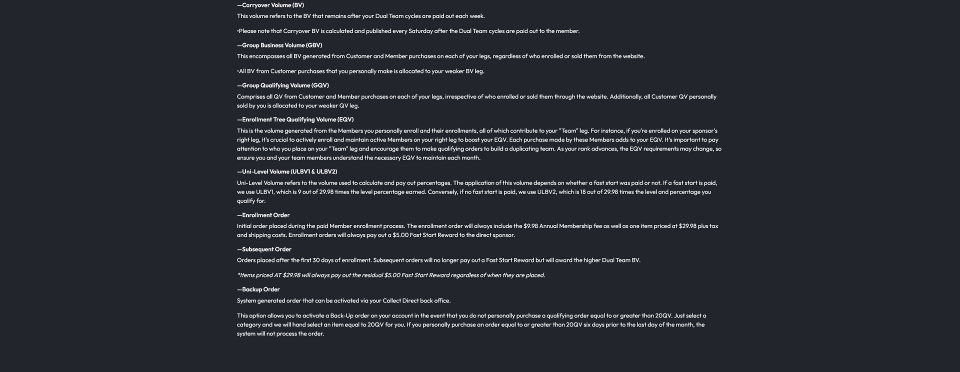
—Qualifying Volume (QV)

To qualify for specific commissions and advance in ranks, Members must purchase a minimum amount of QV each month (20QV).

•QV is generated from your personal orders.

—Business Volume (BV)

This volume is generated from purchases made by both Customers and Members. It contributes to Dual Team commissions and the Global Team Building Bonus. BV from customer orders is always allocated to your weaker Dual Team leg.



—Carryover Volume (BV)

This volume refers to the BV that remains after your Dual Team cycles are paid out each week.

•Please note that Carryover BV is calculated and published every Saturday after the Dual Team cycles are paid out to the member.

—Group Business Volume (GBV)

This encompasses all BV generated from Customer and Member purchases on each of your legs, regardless of who enrolled or sold them from the website.

•All BV from Customer purchases that you personally make is allocated to your weaker BV leg.

—Group Qualifying Volume (GQV)

Comprises all QV from Customer and Member purchases on each of your legs, irrespective of who enrolled or sold them through the website. Additionally, all Customer QV personally sold by you is allocated to your weaker QV leg.

—Enrollment Tree Qualifying Volume (EQV)

This is the volume generated from the Members you personally enroll and their enrollments, all of which contribute to your "Team" leg. For instance, if you're enrolled on your sponsor's right leg, it's crucial to actively enroll and maintain active Members on your right leg to boost your EQV. Each purchase made by these Members adds to your EQV. It's important to pay attention to who you place on your "Team" leg and encourage them to make qualifying orders to build a duplicating team. As your rank advances, the EQV requirements may change, so ensure you and your team members understand the necessary EQV to maintain each month.

—Uni-Level Volume (ULBV1 & ULBV2)

Uni-Level Volume refers to the volume used to calculate and pay out percentages. The application of this volume depends on whether a fast start was paid or not. If a fast start is paid, we use ULBV1, which is 9 out of 29.98 times the level percentage earned. Conversely, if no fast start is paid, we use ULBV2, which is 18 out of 29.98 times the level and percentage you qualify for.

—Enrollment Order

Initial order placed during the paid Member enrollment process. The enrollment order will always include the $9.98 Annual Membership fee as well as one item priced at $29.98 plus tax and shipping costs. Enrollment orders will always pay out a $5.00 Fast Start Reward to the direct sponsor.

—Subsequent Order

Orders placed after the first 30 days of enrollment. Subsequent orders will no longer pay out a Fast Start Reward but will award the higher Dual Team BV.

**Items priced AT $29.98 will always pay out the residual $5.00 Fast Start Reward regardless of when they are placed.*

—Backup Order

System generated order that can be activated via your Collect Direct back office.

This option allows you to activate a Back-Up order on your account in the event that you do not personally purchase a qualifying order equal to or greater than 20QV. Just select a category and we will hand select an item equal to 20QV for you. If you personally purchase an order equal to or greater than 20QV six days prior to the last day of the month, the system will not process the order.
